Solutions for Org
Charts, Org Design,
and People Analytics

Ready-to-Run
platform available
in no time

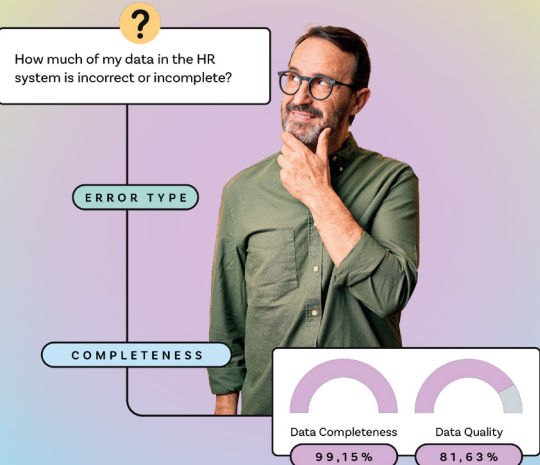

Minimal effort
in implementing
your tool

Benefit from
our 25+ years
of experience

Data Quality Screening

Identify faulty and missing HR data at a glance

Supervisor Board

Dashboard for executives with up-to-date HR metrics

Ingentis

org.manager Extensions

Our extensions elevate your Org Charting, Org Design, and People Analytics to the next level! Benefit from our smart, quickly deployable, and dynamically advancing solutions. With our extensions, you not only gain an overview of your organizational structure and HR data but also the ability to actively utilize these insights and make informed decisions.

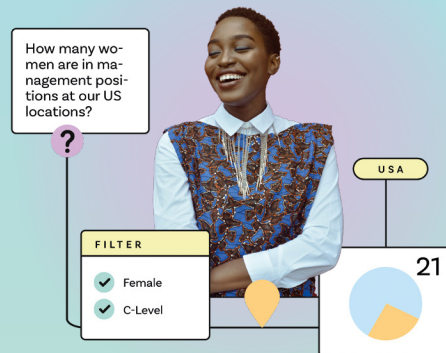

People Directory

Smart phonebook for better communication in the organization

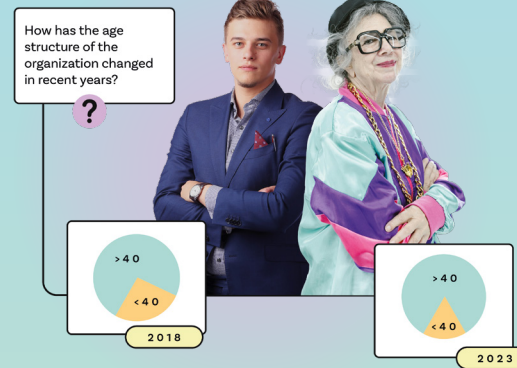

HR Insights Board

Information about the organization and its employees

HR Trends Board

Analysis of HR metrics from past and future

OrgDesigner

Simulate structural changes and their impacts in advance

Org Insights Board

Relevant KPI for designing efficient organizations

Ingentis org.manager

Versions

In addition to the extensions, the org.manager platform offers three versions: Essential, Advanced, and Premium. The versions are tailored to cover your basic needs for automated org chart creation and data visualization. You choose exactly what you need!

Essential

- Current, browser-based org charts from a common data source
- Easy navigation thanks to hierarchy tree and detailed search
- Object representation with image and job description

Advanced

- Everything Essential offers
- Dynamic filtering and highlighting functions
- Data integration from additional sources

Premium

- Everything Advanced offers
- Visualization and calculation of HR KPI such as FTE/department
- PowerPoint and configurable data exports as CSV/Excel files

Want to learn more about our platform?

All information can be found on our website or in one of our free webinars!
