What sets us apart

Winicker Norimed in 6 words

Flexibility

We are focused on the needs of our clients and offer customized services tailored specifically to your requirements.

Expertise

Our well-coordinated team has solid experience in many indication areas and in paper based as well as eCRF-based methods of data capture from over 500 successfully completed studies.

Innovation

We are always open to growing through new challenges and ready to take innovative paths.

Reliability

We guarantee excellent quality while strictly adhering to all requirements.

Commitment

We work passionately with extraordinary dedication and are motivated to lead your project to success.

Partnership

We maintain close long-term relationships with our partners and engage with them personally and at eye level.

Our promise to you

One vision, one team!

- Our employees are committed to your project
- Smart solutions guarantee you a real-time overview of important aspects of your project

➡ **Oversight through integration**

Effective communication

- Our main Project Manager acts as a single point of contact for you and further involved parties
- Reduced number of interfaces accelerates project progress

➡ **Faster & goal-oriented decisions**

Risk & issue management

- Proactive risk identification & joint risk mitigation
- In-house consultants to provide on-the-spot support for specific challenges

➡ **Making risks manageable**
